

BUNNY VAN CISE

Player Profile: Bunny Van Cise

EBRC: When did you first start playing tennis

I started playing around 6. My parents were very good players. Family tennis was required if you wanted Sunday dinner. As a kid, I hated tennis and quit when I left home. Much later on, having gained some weight and needing a fun exercise, I rediscovered tennis. Now I am literally hooked on tennis. In fact I have gone from designing kids clothes in NYC to designing (tennis) web sites.

EBRC: What tennis activities do you participate in at EBRC? (drill/league)

I now play mostly with friends I met thru playing in EBRC leagues.

EBRC: How long have you been playing tennis at EBRC?

About 18 years.

EBRC: Who is your favorite tennis player and why?

Rodger Federer: I think he is the greatest player in history. He gets the most amazing shots even when you think he shouldn't be able to win the point. He also has outstanding court manners. I also like Chris Everts.

EBRC: Do you have any tennis related honors, awards or certifications?

The GrowingTennis.com newsletter (TIA) wrote an article on Designing Tennis Web sites thru TennisConnect that featured me as their Authorized Service Provider web designer.

EBRC: What shot would you consider your greatest weapon?

HUM! Didn't know I had one. Guess it would be my convoluted spins left over from my ping pong glory days.

EBRC: If you were president of the ITF is there anything you would change?

Eliminate the "no coaching" rule for non pro players.

EBRC: When playing doubles, do you prefer the ad or the deuce side?

I like the deuce side. Most games are lost on the ad side. This way I don't have to feel so bad when I made the most errors.

EBRC: What is your single most memorable moment as a player or spectator?

Being able to watch my son play tennis as a division one player for his college.

EBRC: Any other thoughts or comments?

The East Brunswick Racquet Club is absolutely the best indoor tennis club in the area. The staff is outstanding. They make it special.
